1452 Foundry's Rock Band Camp is a summer camp for the next generation of musician. We offer the opportunity for campers to explore their creativity in new and exciting ways. Campers will participate in workshops where they will learn to write their own songs and have their very own recording session where they will get hands on experience with both the technical and performance sides of recording. Rock Band Camp is packed with fun and activities to help create better sounding musicians! Please consider sponsoring this student to help them participate in this rare opportunity.
